

Introducing **Mastership Game**

It's the **fast paced, secretive, espionage & strategy** spy experience you've wanted to be a part of.

Unleash your inner spy

The ultimate spy vs spy competition

See how your team mates work under pressure, time constraints, in negotiations and find out who's the most sly!

This unique combination of theme and competition naturally lowers people's barriers, allowing their real personalities to shine through, building stronger social bonds and trust.

With puzzles to solve, missions to complete, money to make, deals to strike and resources to manage, you'll need to strategise effectively. Most importantly, no one will be bored! Even those in your team that don't like team building activities will be drawn into the energy and dynamism of this fun game.

Channel your inner Jason Bourne in this fast-paced game of wits, intelligence and intrigue. Formed into teams representing different countries, this is a battle to find the world's best intelligence agency. It's fun, secretive and guaranteed to delight your whole crew.

What others are saying

The events these guys put on are out of this world. My work colleagues are a mix of all types of people but every last one of us enjoy DoE games. We've done both Mastership Game and Train Heist and both exceeded our expectations. Can't wait to see what's available for next year's team challenge!

Lisa Holt / ATO, Social Club Committee

Thank you for creating such a great afternoon for our team. The conversations have continued for the past two weeks around solving the problems and who won. Definitely recommend to others to do as team building.

Mary Dunmore / Grant Thorton, Personal Assistant
