See how your team mates work under pressure, time constraints, in negotiations and find out who's the most sly! Even those in your team that don't like team building activities will be drawn into the energy and dynamism of this game.

Overview:

Cast into the role of spies, teams represent countries vying to become the world's best spy organisation. To win, they'll need to complete puzzle-based missions, strike deals with the blackmarket, manage their resources and strategise effectively. The team that successfully finishes their missions and makes the most money will win!

Mastership Game is highly dynamic with multiple ways to play and a time limit crafted so teams cannot finish everything, forcing strategy. With highly engaging moments such as using high tech tablets to crack codes and hotwiring spy briefcases, no one will be bored!

Add-on: Extended Debrief

Our experienced facilitators can guide your team through a deep dive into a topic of your choice. This is a great opportunity to use the learnings and direct experiences of your team off the back of our team building experiences to really harness the power of interactive learning. Debriefs are an additional 30 minutes to the experience.

Select from:

- Collaboration & healthy competition
- Responses to stress & how to overcome them
- Problem solving under time constraints
- *Other specific topics – get in touch*

Add-on: Personality Profiling

Your team will gain deeper insights as to how they work as an individual and within a team. Paired with a simulation, this is an excellent way to create rich added learning stimulus in a safe environment.

A facilitated discovery session will go into detail about personality types, how these played out in the simulation, lessons that can be drawn and how an awareness of personality types can aid in day-to-day team dynamics. Personality Profiling is an additional 45 minutes to the experience.
