Train Heist is full of challenging puzzles, fun mysteries and characterised hosts that will make your people feel in the heart of a crime thriller. Likened to a pop-up escape room on steroids with hosts and tech, Train Heist will push your team in the best way.

Overview:

Train Heist casts your team into the role of budding detectives solving one of Queensland's most notorious unsolved mysteries. Working in teams with evidence taken from the scene, they will compete against the clock (and each other) to crack the case – fastest and most accurate will win!

Participants will need to use a variety of thinking styles to find and sort information, solve puzzles and gain access to more evidence and reason out the details of the crime – all of which will challenge their team work and communication.

Train Heist will pull your whole team into the mystery and fun.

Skills to take back to the workplace:

- Uncover hidden strengths
- Practice alternative thinking styles and collaboration
- Solidified relationships through shared experience

Highlights:

- **Memorable:** Will stay with your team long after it's finished.
- **Intricate:** The right level of challenge, building momentum without being frustrating.
- **Something for everyone:** Even the sceptics will be drawn into the challenges and competition.

Add-on: Extended Debrief

Our experienced facilitators can guide your team through a deep dive into a topic of your choice. This is a great opportunity to use the learnings and direct experiences of your team off the back of our team building experiences to really harness the power of interactive learning. Debriefs are an additional 30 minutes to the experience.

Select from:

- Collaboration & healthy competition
- Responses to stress & how to overcome them
- Problem solving under time constraints
- *Other specific topics – get in touch*

Add-on: Personality Profiling

Your team will gain deeper insights as to how they work as an individual and within a team. Paired with a simulation, this is an excellent way to create rich added learning stimulus in a safe environment.

A facilitated discovery session will go into detail about personality types, how these played out in the simulation, lessons that can be drawn and how an awareness of personality types can aid in day-to-day team dynamics. Personality Profiling is an additional 45 minutes to the experience.
