## Add-on: Extended Debrief

Our experienced facilitators can guide your team through a deep dive into a topic of your choice. This is a great opportunity to use the learnings and direct experiences of your team off the back of our team building experiences to really harness the power of interactive learning. Debriefs are an additional 30 minutes to the experience.

### Select from:

- Collaboration & healthy competition
- Responses to stress & how to overcome them
- Problem solving under time constraints
- *Other specific topics – get in touch*

## Add-on: Personality Profiling

Your team will gain deeper insights as to how they work as an individual and within a team. Paired with a simulation, this is an excellent way to create rich added learning stimulus in a safe environment.

A facilitated discovery session will go into detail about personality types, how these played out in the simulation, lessons that can be drawn and how an awareness of personality types can aid in day-to-day team dynamics. Personality Profiling is an additional 45 minutes to the experience.
